INSPECTION NOTES

This Inspection Report is issued to document the receipt (date: April 3, 2017) and acceptance of the employer's full Incident Investigation Report (EIIR), relating to an incident which occurred on March 4, 2017 in the University Service Building.

I. EMPLOYER INCIDENT INVESTIGATION REPORT (EIIR)

As per section 174 of the Workers Compensation Act, this employer has carried out an investigation. At this time, it is reasonable to believe that as far as possible, the full investigation has determined the cause or causes of the incident, identified any unsafe conditions, acts or procedures that contributed in any manner to the incident, and has recommended corrective action to prevent similar incidents.

As per section 176 of the Workers Compensation Act, the employer has prepared in accordance with the policies of the board of directors, an incident investigation report. The report contains the categories of information that are specified as being required in such reports by the Workers Compensation Act and the policies of the board of directors.

This Inspection Report is not intended to document agreement or disagreement with the findings and recommendations of the employer's incident investigation report (EIIR). Rather, this inspection report documents that the employer has complied with the requirements of the Workers Compensation Act to prepare a full incident investigation report.

The employer is reminded that without undue delay, they must undertake any corrective action necessary to prevent recurrence of similar incidents. Further, section 176 of the Workers Compensation Act provides that as soon as is practicable, the employer must prepare a report of the corrective actions taken. There is no prescribed form for the corrective actions report.

The employer is reminded that the Workers Compensation Act requires copies of the report to be provided to the joint health and safety committee.

At the time of this inspection, no violations of the Workers Compensation Act or the Occupational Health and Safety Regulation were cited. This decision relates only to this inspection date and location noted on this inspection report. A follow-up inspection may occur and/or a Notice of Compliance document may be required if orders are noted in a future inspection.
