			Corrective Actions:		
			All Actions Complete		
			Corrective Action 1		
			Corrective Action Identified: Doctor recommended physiotherapy.		
			Situation awareness and putting strain on body parts.		
			Estimated Completion Date: 2024-02-29		
			Final Actions Taken: Be aware of surrounding and follow		
			recommendations by Doctor.		
			Date Completed: 2024-02-29		
			Investigation completed. Recommendations: take micro breaks,		
			change tasks, ask for resources. Incident closed.		
122605		2022 42 42	Investigation required.		
132605	В	2023-12-12	Description: Patient moving furniture in Scarfe Building and felt strain		С
			at the right wrist in the morning. Pain got worse during the day while		
			on shift moving more furniture.		
			Roofing material has been removed. Incident closed.		
			Revisit in incident in April. Tamas spoke with the Contractor		
			and the roofing material will remain until the job is		
			completed. Crew reminded to be mindful when backing up.		
			In progress.		
			Workers are advised to perform a walk-around and maintain		
			awareness of their surroundings. Tamas to update if the		
			material has been removed.		
			Description: Worker was backing up along Volkoff lane behind		
132334	В	2023-11-02	Hebb Theater with Garbage truck. It was early in the morning		С
132334	В	2025-11-02	with some rain and dark outside. As worker was backing up, they		
			had to stop for a cyclist to pass by behind the truck before		
			proceeding. Additionally, it was noted that backing up along the		
			lane was challenging due to a number of items that are being		
			stored along the side of the driveway. As backing up driver did		
			not notice a bollard on the passenger rear side of the vehicle as		
			they were paying attention to other clearances etc, and made		
			contact with a bollard. AS bollard was hit, it tipped over and came		
			loose from the ground and hit the adjacent Hebb Theater glass		
			window causing some damage to the building. Worker reported		

					Meeting N	rinutes
			incident with no visible damage to vehicle or injury to driver. Root Cause: While backing up with garbage truck along a laneway, worker not seeing hit a bollard. It was dark, raining and navigating backwards along the laneway was difficult due to an obstacle of items being stored by the building. Although it was not the reason for hitting the bollard, it may have contributed to it. Corrective Actions: Not Complete Corrective Action 1 Corrective Action Identified: Take your time, plan your route especially when backing up. Get out and do a pre-walk of the route to look for obstacles etc. Estimated Completion Date: 2023-11-15 Final Actions Taken: Discussed recommendation with worker Date Completed: 2023-11-15 Corrective Action 2 Corrective Action Identified: Contact the department that is storing items along the laneway and see if it can be moved. Estimated Completion Date: 2023-11-24			
132486	В	2023-11-28	 Vendor replied that the toolbox was under warranty and will be repaired. In progress. SR submitted to Sheetmetal. Job will be completed when the weather becomes warmer. In progress. The lid of the new tool box is heavy. Dale to reach out to supplier to see if modification can be made. Corrective action not complete. In progress. Description: Employee was holding toolbox lid open with left hand and picking up safety cones with right hand to put in tool box. The lid started to close, employee caught off guard by the weight and thumb was caught between box and lid. Employee reported to first aid. Tool boxes are attached to bin. Bin and tool box just arrived and are new to all employees. Root Cause: Not accustomed to new tool box. Tool box could be built safer Corrective Actions: 	Dale Low	2024-03	IP

132426	В	2023-11-15	Not Complete Corrective Action 1 Corrective Action Identified: Look into different lid types through either sheet metal or supplier. A different type of hinge. • Garage is repairing the backhoe. In progress. • Garage is aware of the pending job. In progress. • Tamas to send this to garage to get the backhoes ride assist system option fixed. In progress. Description: Worker was driving unloaded backhoe forward, traveling from main campus to south campus. Along the route there were many uneven surfaces that caused the backhoe to bounce up and down more than normal due to the ride-assist option not working in the backhoe. Next day worker was experiencing sore lower back when bending over, reported incident to head and attended first aid. Returned to work and worked on light duties for the reminder of the week. Root Cause: Because the backhoes ride-assist system is not working, during long distance driving the backhoe bounces when going over uneven surfaces. The bouncing motion put strain on worker back. Corrective Actions: Not Complete	Tamas Weidner	2024-03	IP
131414	В	2023-05-29	Corrective Action 1 Corrective Action Identified: tbd CAIRS to be completed. Incident was crew talked. In progress. Pending on completed CAIRS report. In progress.
